# WIZARDING ACADEMY

June 23rd-27th 2025  
ages 7+

Welcome to Wizard Academy! Has your child been called to learn magic? Does every day involve concocting new potions? Would they like to uncover their hidden magical talents? In this camp, young wizards will create magic wands, write their grimoire, and cast spells in the forest. They will also play games, have plenty of free time, and explore the pond, looking for nereids and merfolk. We are excited to meet all the young magically-inclined or magic-curious youth! No prior experience necessary!

# WILD SKILLS

July 7th-11th 2025  
Ages 5+

Calling all wild children! Back by popular demand! If you want to run through the woods, build forts, play 30 different types of tag, track animals and spend all day in the mud then this is the camp for you. This camp is ideal for high energy kids who always want to be on the move. There will be a variety of crafts, art activities, and movement games. Campers will explore wild skills such as assembling a tent, building a lean-to, and possibly whittling! We work with campers to support their individual needs and create activities based on their needs and interests.

# FOREST DRAGONS

July 28th-August 1st-  
Ages 5+

Are you a lover of fantasy and enchantment? Do you enjoy imaginative play, active games, forest exploration and crafts? A camp for our littlest campers and is designed to be a safe, supportive place for enthusiastic unicorn and dragon lovers to gallop and fly through the trees, seeking magic flower meadows and secret forts.

COMMUNITY BUILDING,  
CONNECTION TO PLACE

# CREATIVE ECOCRAFTING

July 14th-18th 2025  
Ages 7+

Sticks, rocks, leaves, moss, and flowers. These are a few crafting supplies we will use at Ecocrafting camp. We will also use paints, clay, and other media to create works of art and crafts alike. Whether your child enjoys building fairy houses, painting with watercolor, or inventing outfits from leaves, there will be something fun to explore. We will have traditional camp crafts such as friendship bracelets and 3D art and also explore choice-based projects based on camper-interest. Popular crafts youth have enjoyed previously: gnome making, rock painting, whittling, and tiny sculptures.

CREATIVITY, CONFIDENCE,  
EMPATHY. SENSE OF SELF
